PDFCreator naudojimas suformuoti pdf dokumentą ir spausdinti iš „Adobe reader“

Microsoft Dynamics NAV (buvusi Navision) programoje pasirinkę spausdinti į PDFCreator ekrane pamatysite:

	<p>Varnelė „After saving ...“ reiškia, kad po dokumento suformavimo jis bus atidarytas.</p> <p>Spauskite „Save“</p>
	<p>Įprastai bus siūloma išsaugoti dokumentą „Mano dokumentuose“</p> <p>Spauskite „Save“</p>

 <p>The screenshot shows the 'File' menu of Adobe Reader. The menu items are: Open... (Ctrl+O), Create Adobe PDF Using Acrobat.com..., Collaborate, Save a Copy... (Shift+Ctrl+S), Save as Text..., Attach to Email..., Close (Ctrl+W), Properties... (Ctrl+D), Digital Editions, Print Setup... (Shift+Ctrl+P), and Print... (Ctrl+P). The 'Print...' option is highlighted with a blue background.</p>	<p>Kai dokumentas atsidarys „Adobe reader“ programoje, pasirinkite „File-Print“</p>
